0123 **Philosophy of the Board**

A Board of Education is a legal entity for providing a system of public education within a geographic area of the State of Wisconsin. The system was created by, and is governed by, State statutes. Members of a Board are chosen by citizens to represent them and the State in the governance of the local schools.

The Board has the dual responsibility for implementing statutory requirements pertaining to public education and for meeting the desires of residents. While the Board has an obligation to determine and assess citizen desires, it is understood that when the voters elect delegates to represent them in the conduct of specified educational programs, they, at the same time, are endowed with the authority to exercise their best judgment in determining policies, making decisions, and approving procedures for carrying out the responsibility.

The Board declares and, thereby, reaffirms its intent to:

- A. Establish policies and make decisions on the basis of declared educational philosophy and goals.
- B. Act as a truly representative body for citizens in all matters related to programs and operations. The Board recognizes that ultimate responsibility for public education rests with the State, but the Board of Education has been assigned specific authority through statute, and the Board shall not relinquish or fail to exercise that authority.
