STUDENT PRIVACY AND PARENTAL ACCESS TO INFORMATION – STUDENT RECORDS

Records shall contain relevant data supplied by certified school personnel. There are two basic types of records: progress and behavioral. Progress records are those which contain a list of courses taken, grades obtained, extra-curricular involvement, immunization and the attendance record. All those items not contained in the progress records are considered behavioral. A large portion of the behavioral records is the cumulative folder. Any other records kept by any other school personnel are to be termed behavioral. Typical items contained in the behavioral records are achievement and ability tests, psychologists' reports, exceptional educational needs records, tests, health records, teacher written reports, discipline notices, etc.

The sole purpose for maintaining student records is to provide a permanent history of the educational experience of the student. The District adopted the General Records Schedule for Wisconsin Public School District and Related Records through the Wisconsin DPI.

Address Confidentiality Program

Students who are verified participants in the Safe at Home/Address Confidentiality Program administered by the Wisconsin Department of Justice shall be permitted to use their substitute assigned address for all District purposes. The Board shall refrain from including the student's actual/confidential residential address in any student records or files (including electronic records and files) or disclosing the student's actual/confidential residential address when releasing student records. The Board shall only list the address designated by the Wisconsin Department of Justice to serve as the student's address in any student records or files, including electronic records and files. Further, the Board shall use the student's substitute assigned address for any and all communications and correspondence between the Board and the parent(s) of the student (or adult student). The student's actual/confidential residential address shall be maintained in a separate confidential file that is not accessible to the public or any employees without a legitimate purpose. The intentional disclosure of a student's actual/confidential residential address is prohibited.

Implementation:
