

My Hero/Villain is Darth Vader

Darth Vader used to be a Jedi. He fell in love with Padme. Chancellor Palpatine told him if he became a Sith he could save Padme forever. He fell in lava when fighting Obi Wan Kenobi and got three limbs, in addition to the arm he already cut off and was made into a robot.

His powers are the force and his uncanny ability to utilize the lightsaber. The force consists of telekinesis, choke, push, pull, Jedi mind tricks, and levitation. His lightsaber is red and can cut through basically anything and can deflect bullets and lightning. The only thing it can't cut through is another lightsaber.

Darth Vader has one of the most well known costumes. His costume is dark and shiny. He wears a menacing mask to hide his real face. His outfit is complete with dark black cape.

There are several things that affect my character's success. His decisions are sometimes clouded by his love for Padme. His enemies are the rebellion.

As you can tell Darth vader is totally awesome and he is my favorite hero/villain.
