

# Abraham Lincoln

Lincoln described himself like a piece of floating driftwood. Lincoln loved animals some people say that he would own a animal shelter if he was alive now, he would never even hunt. Before Lincoln was president he was a very important lawyer. He was the 16th president of The United States of America.

Abraham was mainly famous for being the the President, but aside for being the president he also freed a lot of slaves in America but doing that also lead to the Civil war when the North and South fought over slavery being legal or illegal the North one. Then there was no slavery in America, But that didn't stop other countries.
