

My Mum

By: Mikayla Wollner

I'm doing my mum because she has always been there for me even if sometimes i don't want her to be but now I look back and and i'm thankful for her. My mom was born on December 23, 1976 to my wonderful Grandparents John and Betty.

When my Mum was 3 years old her little sister Kelly Jean was born and that's where i got my middle name Jean. When my mom was in highschool she went to hortonville high school and she had a really good friend Janel she told me a story that happened to them, one day they were boating in Shawano and their boat broke down so they were stranded out in the middle of nowhere and this was before cell phones (yup she's that old! don't tell her i said that) anyways they made the best out of this bad situation and flagged down another boat that just happened to be mechanic and it was just a simple problem they were out of gas and the tanks needed to be switched!

My Mum went to UW-Eau Claire and her dream job was to work in the special education field. The reason my Mum named me Mikayla after my uncle Michael who passed away when my dad was 12. A bad memory my mom has was when she was in college she had to tell her mom that her grandma passed away.

In the next 20 years my Mum would like to see her kids graduate college and live life to the fullest, and she would like to move to colorado with my aunt and uncle and that's why my Mum is my hero!
