SCHOOL PERFORMANCE REPORT

2005-2006

What is the Wisconsin School Performance Report?

The Wisconsin School Performance Report (SPR) was created in 1991 with the passage of State Statute [115.38](#). It serves as the state's annual public school report card, and represents the department's most comprehensive resource for data on school performance and student achievement.

Information in the School Performance Report comes from three sources:

- Wisconsin's 426 public school districts and its two state schools (Wisconsin School for the Deaf and Wisconsin School for the Visually Handicapped)
- Private firms that administer assessments to Wisconsin's students (ACT, AP, etc.)
- DPI data collections other than SPR (PI- 1505 Annual Report, PI-1202 Fall Staff Report, and PI-1215 Curriculum Report)

The contents of the School Performance Report are organized into two broad categories: Student Performance Indicators and Opportunity-to-Learn Indicators. Student Performance Indicators give readers a look at eight different measures of achievement:

- Advanced Placement Tests
- American College Test (ACT)
- Graduation Statistics
- Knowledge & Concepts Examinations (grades four, eight and ten)
- Post-graduation Intentions
- Wisconsin Reading Comprehension Test (formerly Third Grade Reading Test)

Opportunity-to-Learn Indicators offer insight into the classes and experiences available to public school pupils. This section is divided into a District Profile and a Student Profile. The District Profile includes:

- Advanced Coursework
- General Fund Expenditures
- General Fund Revenues
- High School Graduation Requirements
- Pupil/Staff Ratios

The Student Profile includes:

- Attendance
- Dropouts
- Expulsion
- Extra/Co-Curricular Activities
- Habitual Truancy
- Retention
- School-Sponsored Community Activities
- Suspension (Out-of-School)

ACT (AMERICAN COLLEGE TESTING)

The ACT is designed by the American College Testing Corporation of Iowa City, Iowa, to measure knowledge, understanding and skills acquired during the K-12 educational experience in English, mathematics, reading and science reasoning. Information is for members of the graduating class who took the test as juniors or seniors. Only students who completed the entire test are represented in this publication.

ATTENDANCE

Attendance is face-to-face instructional contact between a student and a teacher. It is collected for the entire school year. The attendance rate is actual days of attendance divided by possible days of attendance, expressed as a percentage. The smallest reportable unit of attendance is one-half day. 2004-05 was a year of transition to a new attendance data collection.

DISTRICT COSTS

Financial information is obtained from the Annual Report (PI-1505) of school districts. Beginning with the 1999-2000 School Performance Report definitions for revenue and expenditure data have been changed to make them consistent with the definitions used by the School Finance Service Tea. The definitions used prior to 1999-2000 were restricted for the most part to so-called General Fund (Fund 10) revenues and expenditures.

DROP OUTS

A dropout is a student who was enrolled in school at some time during the reported school year, was not enrolled at the beginning of the following school year (third Friday in September), has not graduated from high school or completed a state or district-approved educational program and does not meet any of the following exclusionary conditions: transfer to another public school district, private school, or state- or district-approved educational program; temporary absence due to expulsion, suspension or school-approved illness; death. The method of calculating dropout rates changed in 1998-99 and 2003-04.

EXPULSIONS

Expulsions are sanctions imposed on students by formal school board action, which, for purposes of discipline, prohibit pupils from attending school. Expulsion action is described in Wisconsin State Statutes 120.13(1)(c) and 119.25. Expelled pupils are counted only once (as the number expelled) and the percent of pupils expelled is the number divided by the third Friday enrollment. The expulsion rate is the number of days lost to expulsion (i.e. number of days expelled) divided by the possible days of attendance.

PUPIL STAFF RATIOS

Information for this report is extracted from data reported on the Staff Report (PI-1202) submitted by local school districts. Staff members are reported by full-time equivalency (F.T.E.). The pupil/staff ratio is the student enrollment, counted on the 3rd Friday in September, divided by staff full-time equivalency (licensed instructional, administrative, aides/support staff or the sum of all three).
