

**Most Spanish speakers will not use "a.m." and "p.m."**

**Instead, time of day is clarified with the following expressions.....**

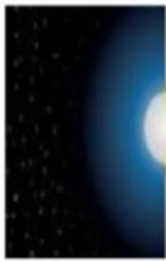

**Instead of  
AM / PM ...**

La hora

diecisiete

I can say what time it is.

de la madrugada  
in the very  
early morning

de la mañana  
in the  
morning

de la tarde  
in the  
afternoon

de la noche  
in the evening  
at night

\* For noon and midnight no  
addition is necessary. Simply say...

Es (el) mediodía.

**It's noon.** (mid-day)

Es (la) medianoche.

**It's midnight.**
