

## **Parents Who Eat Lunch With Their Child at School**

There is a change for any parent who wishes to eat lunch with their child at school. We can no longer allow an adult or 2<sup>nd</sup> child lunch to be purchased using the student's pin number. This change is occurring due to the transition to a new lunch software system. Moving forward, parents will have the following options to purchase lunch:

1. You may pay cash for your lunch purchase, an adult lunch is \$2.50 and a child (guest) is \$1.85. The cashier will enter a 4 digit visitor number and enter your lunch and payment into the system.
2. If you eat frequently with your child, you may request your own 4 digit pin from the Food Service department. You will need to contact us at 779-7904 and give us your name and we will then create your pin number. Please give us a day advance notice initially for this option. If you forget to do so, just give the cashier your name in the checkout line and she will then call the Food Service office and request your pin number. Next time you lunch with your child your pin number will be available to use.

We thank you for your patience as we transition to the new system and please contact us if you have any questions regarding this.
