

GMS FORENSICS

GMS Forensics is a great opportunity for 5th- 8th graders to be involved in fun public speaking of various types. Categories include individual as well as group participation. For example, students can choose poems or a favorite prose piece to read, give speeches, do solo or group acting, give a demonstration, or perform a newscast to name a few of the available categories.

Skills learned in forensics contribute to life-long abilities and great confidence building. Our season begins in mid September and ends at the start of November. Practices are twice a week after school generally on Mondays and Tuesdays. Optional practices can be arranged for 7th and 8th grade students who also participate in sports.
