## DISTRICT-ISSUED STUDENT E-MAIL ACCOUNT

Students assigned a school e-mail account are required to utilize it for all school-related electronic communications, including those to staff members and individuals and/or organizations outside the District with whom they are communicating for school-related projects and assignments. Further, as directed and authorized by their teachers, they shall use their school-assigned e-mail account when signing-up/registering for access to various online educational services, including mobile applications/apps that will be utilized by the student for educational purposes.

This policy and any corresponding guidelines serve to establish a framework for student's proper use of e-mail as an educational tool.

Personal e-mail accounts on providers other than the District's e-mail system may be blocked at any time if concerns for network security, SPAM, or virus protection arise. Students are expected to exercise reasonable judgment and prudence and take appropriate precautions to prevent viruses from entering the District's network when opening or forwarding any e-mails or attachments to e-mails that originate from unknown sources.

Students are prohibited from using any District-issued email address, or password for the District-issued email account, for personal accounts in third-party services (e.g., Facebook, X, Instagram, Pinterest, YouTube, etc.)

Students shall not send or forward mass e-mails, even if educationally related, without prior approval of their classroom teacher or the site administrator.

### **Unauthorized E-mail**

The Board does not authorize the use of its Technology Resources, including its computer network ("network"), to accept, transmit, or distribute unsolicited bulk e-mail sent through the Internet to network e-mail accounts. In addition, Internet e-mail sent, or caused to be sent, to or through the network that makes use of or contains invalid or forged headers, invalid or non-existent domain names, or other means of deceptive addressing will be deemed to be counterfeit. Any attempt to send or cause such counterfeit e-mail to be sent to or through the network is unauthorized. Similarly, e-mail that is relayed from any third party's e-mail servers without the permission of that third party, or which employs similar techniques to hide or obscure the source of the e-mail, is also an unauthorized use of the network. The Board does not authorize the harvesting or collection of network e-mail addresses for the purposes of sending unsolicited e-mail. The Board reserves the right to take all legal and technical steps available to prevent unsolicited bulk e-mail or other unauthorized e-mail from entering, utilizing, or remaining within the network. Nothing in this policy is intended to grant any right to transmit or send e-mail to, or through, the network. The Board's failure to enforce this policy in every instance in which it might have application does not amount to a waiver of its rights.
