

Parents of children ages 2-5...

We look more closely at how children are:

- talking and listening
- using their hands and moving
- developing early learning skills

Hortonville Area School District's Early Childhood Team in partnership with Birth-to-Three Services provides developmental screening opportunities throughout the school year for children age 2-5 who live within the school boundaries. The purpose of these screenings is to check on a child's overall development and determine if additional testing or services may be needed before starting kindergarten.

Have questions about your child's development?
Please contact Anne at 757-7153 to schedule an appointment.
Walk-ins are welcome, but please plan extra time to fill out a developmental screening questionnaire.

- Tuesday, August 20th - 1:30 – 5:00 p.m. at HES
- Tuesday, October 8th - 7:30-11:00 a.m. at HES
