## Thursday, March 14th, 2024

- Today is a B6 Day for band lessons and a Green Day for choir lessons.
- Happy Pi Day today. March 14 or 3/14 is celebrated as pi day because 3.14 are the first digits of pi. Math nerds around the world love celebrating this infinitely long, never-ending number.

Did you know: The record for reciting the most number of decimal places of Pi was achieved by Rajveer Meena at VIT University, Vellore, India on 21 March 2015. He was able to recite 70,000 decimal places. To maintain the sanctity of the record, Rajveer wore a blindfold throughout the duration of his recall, which took an astonishing 10 hours!

- Congratulations to the 7th grade for doing a great job during the NEW manufacturers fair yesterday. We hope that you had an opportunity to learn about some great career options that exist within manufacturing. Thank you also to the 7th grade team, Ms. Danke, and Mrs. Kolosso in all their help with getting this event ready for the students.
