### HOW TO REGISTER

<https://friends-of-mosquito-hill.square.site/program-registration>

**REGISTRATION OPENS  
MARCH 1ST!**

## KNEE-HIGH NATURALISTS

### Exploring Nature

**Tues. June 10 – Fri. June 13**

Put on your hiking boots and let's go explore! This camp is just right for the budding outdoor enthusiast. We'll tackle the basics of many natural themes and learn to think like a naturalist through hands-on activities, hikes, and crafts.

## NATURE RANGERS

### Art in the Park

**Tues. June 17 – Fri. June 20**

When you combine art and the outdoors, it's a perfect match! Get ready to get creative and learn how art can connect us to nature. We'll use the great outdoors as inspiration as we try different art mediums, create a nature journal, and complete various crafts.

## ECO-EXPLORERS

### Wonderful Wetlands

**Tues. June 24 – Fri. June 27**

Wetlands and waters come in many different shapes and sizes! We'll become wetland scientists and uncover the inner workings of these unique ecosystems. Use tools and learn how to assess water quality, find hidden critters beneath the water's surface, and explore the wonder the low lands have to offer.

### Habitats on the Hill

**Tues. July 8 – Fri. July 11**

Do you love critters of all shapes and sizes? Learn all about Wisconsin animals and where they call home! Through outdoor activities, crafts, and hikes we'll explore various habitats, the creatures that live there, and what makes each animal and their home so special.

### Birding Beginners

**Tues. July 15 – Fri. July 18**

If you're interested in all things feathery, or want to be, this camp is a great place to start. Through outdoor activities and hikes, we'll not only explore what kind of birds call Wisconsin home, but their unique skills and traits that make them fascinating additions to our backyard ecosystems.

### Survival Strategies

**Tues. July 22 – Fri. July 25**

A nice afternoon in the outdoors can turn into a survival situation without warning, are you prepared? We'll have fun learning outdoor skills like shelter building, fire starting, navigation, and knot tying. These skills will help prepare you for a tricky situation and boost your confidence in the outdoors.

**Registration confirmation and medical release forms will be emailed post registration.
