

# Mummy Project

## Journal

1. The journal is to be written in the first person point of view. This means that you are to play the part of an ancient Egyptian. The Pharaoh has just died and it will be your group's responsibility to ensure he gets to the next world. You could play the part of one of the following; mummifier, priest, advisor, or family member.
2. Your journal must have seven entries. The journal must be printed or written by hand as the ancients had no printers.
3. Create a cover for your journal. This must also be done by hand. Any illustrations or hieroglyphs must also be freehand work. This work may be painted if desired. Keep Roman print to a minimum (your name).
