

# Adjective Agreement

Another VERY important concept in Spanish is....

F.O.L #3

WHAT YOU SEE

must agree!

What does this mean?

- We know that adjectives are used to describe or modify nouns.
- **F.O.L #1**: Since nouns in Spanish have number and gender, the adjectives that describe the nouns must "agree" or "match".

So in order to make adjectives "match" the nouns they describe, we must use one of 3 adjective agreement patterns.

<b>O</b>	masculino	Femenino
singular	<u>feo</u>	<b>fea</b>
plural	<b>feos</b>	<b>feas</b>

<b>E</b>	masculino	femenino
singular	<u>grande</u>	<b>grande</b>
plural	<b>grandes</b>	<b>grandes</b>

<b>CONSONANTE</b>	masculino	femenino
singular	<u>azul</u>	<b>azul</b>
plural	<b>azules</b>	<b>azules</b>

**¡ojo!** Adjectives in Spanish are usually placed after the noun.
