*To determine the **GENDER** of a noun…….*

- For 'person' nouns, think about the **meaning** of the word.

- For 'non-person' nouns, look at the **ending** of the word.

🚹 Masculine nouns often *end* with

L . **O** . **N** . **E** . **R** . (**S**)
___ ___ ___ ___ ___ ___

*

🚺 Feminine nouns often *end* with

D . **IÓN** . **Z** . **A** .
___ ___ ___ ___

- **HOWEVER,** there are some nouns that do not follow a pattern at all. It is very IMPORTANT to know each noun's gender. You will need to **memorize** the gender of these "tricky" ones.

❓ Can I **change the gender** of a noun? **No, never!**!
