

**iHola! Hoy en la clase de español, ustedes van a trabajar con la tecnología para aprender sobre la Ciudad de México.**

**READ ALL INSTRUCTIONS VERY CAREFULLY!!**

---

Go to my website, then click: 8<sup>th</sup> grade Spanish / La Vida Diaria (Daily Life Unit). Toward the bottom of this main page you will see a link called **Mexico City WEBQUEST**. Open it.

Use the information in the PowerPoint / PDF AND the embedded websites to help you complete the tasks below.

**JOB 1:**

- Open your workbook to WBpp. 51-52. Scroll through the PowerPoint / PDF (focusing on the pictures) until you see images similar to those in your workbook. They do NOT go perfectly in order.
- Don't worry about reading through the information on the slides right now - you'll do that in a bit.
- Label (*in Spanish*) the pictures in your workbook, using the PowerPoint slide titles to help you spell correctly.

**JOB 2:**

- Go back through the PowerPoint /PDF and find the section that talks about your assigned places/monuments.
  - Answer the questions about your section on WBpp. 53-54 by using the information in the PowerPoint / PDF AND by visiting the links found the slides. DO read **beyond** just what you need to answer your questions! Take some additional notes so you can share what you learn with the class. Your classmates will teach you about their assigned places.
- \*NOTE:** You must be in 'slide show mode' in order for the website links to work.

**JOB 3:**

- Prepare to share what you've learned about your assigned places/monuments with the class.
- The PowerPoint / PDF will be open on the SmartBoard for you to reference during your **brief** (2-3 minute) presentation.
- All group members should be involved --- plan what that will look like, what information will be shared, by whom, etc.
