

Calculator Rental Agreement

Dear Parent,

September 4, 2019

Your son/daughter is enrolled in a class which requires the use of a graphing calculator. The calculators are expensive to purchase (\$110 for a TI-84 Plus) and may become outdated as technology moves forward, hence you may not want to purchase the particular model required for the class. The Math Department has established a calculator rental program providing technology education while avoiding the large expense of purchasing the graphics calculators. The calculators are to be used for educational purposes only.

A graphing calculator will be issued to the student for his/her use during the current school year. To rent a calculator: 1) return the bottom portion of this letter, signed by the student **and** parent/guardian to your instructor, and 2) pay the calculator rental fee (\$15 for the school year) to your instructor. *The student understands he/she is responsible for supplying batteries for the calculator throughout the school year.* One set of batteries will be included with the rental of a calculator.

Your son/daughter will be required to use the graphing calculator while in the class. Calculators will not be available for loan in the classroom.

We understand that if the calculator is not returned in good working condition at the end of the current school semester/year, we will pay for a replacement (\$95 for a TI-84 Plus calculator). Charges may be prorated for minor damages. We also understand that the full replacement value will be charged should the serial number be missing, different from the one assigned or shows signs of tampering.

We assume responsibility for the graphics calculator described below. We understand the calculator is to be used for educational purposes only. We understand that if the calculator is not returned in good working condition at the end of the current school semester/year, we will pay for a replacement (\$95 for a TI-84 Plus calculator). Charges may be prorated for minor damages. We also understand that the full replacement value will be charged should the serial number be missing, different from the one assigned or shows signs of tampering.

Type of Calculator: TI-84 Plus

Print: _____
(Student Name)

Serial Number: _____
(Completed upon issuance)

Signed: _____
(Student Signature)

Date of Rental: _____

Signed: _____
(Parent/Guardian Signature)

Current School Year: 2019-2020

Should you desire to rent a graphics calculator for the current school year; sign, detach and return the lower portion of this agreement, along with the appropriate rental fee to your instructor. Keep the top portion of the agreement for your records.
