LETTER FROM

Dear Readers:

My name is Nici Breitrack. I love dogs and puppies. The reason I chose to do my magazine on dogs and puppies is because I have two of my very own. I know a lot about this topic and I want to share with others. I chose to create a digital magazine because this way I would not lose any of my articles or ads. The people who wrote articles, created full page ads or miscellaneous pieces for me, could just send them to my Dropbox. I also selected a digital magazine because I enjoy using technology.

I also decide to have a magazine about dogs and puppies because I love dogs and puppies. My love for dogs and puppies come from my early childhood. I have had dogs and puppies since I was little. I just want to share my love of dogs with other people.

My goal is to get a good grade possibly an "A+". My other goal is that everyone will enjoy my magazine. I hope that everyone loves dogs and puppies. I also hope that anyone who reads my magazine will fall in love with my stories, ads, and miscellaneous items.

It was hard for me when students did not hand in the item that I needed for a deadline. If people were not responsible, it would affect me by bringing my grade down for language.

Meeting the deadlines was also hard for me because I had a lot of items to do for other students. If I did not complete these items, this, too, could bring down my grade in language.

Most of the students who created items for my magazine delivered them on time to me. Some people did not have the items done on time and it was stressful to pressure them to meet the deadline.

I really liked the Deadline Project because we could choose if we wanted to do

a digital or paper magazine. I also liked the fact that we could be on the computer. I did my entire magazine on the computer. I also enjoyed interacting with classmates more than normal. One thing I liked about this project is that we were able to be creative writers. That is one thing I am good at.

One thing I did not like about the project is that I had to use proper grammar, sentence structure, and the right tenses (past and present). The longer articles I found more challenging to write.

One of my successes that I am very proud of is I have been very responsible at keeping track of all my incoming items. Another success is that I met most of the deadlines. I kept on annoying the students who I needed items from.

I love the 2+ news article about the rainbow dog by Casey Harvey. This 2+ news article is about a dog that is a rainbow breed and everyone who sees this dog is scared. The article is very wonderful because it is extremely fun and funny. You have to read this article!

One other article I loved is about a television show for dogs by Alyssa Hughes. This article is about a television show. It is hilarious. This show will make your dogs bark with enjoyment. Alyssa Hughes did a great job on this article.

I adore the full page ad made by Holly Byom. I enjoy it so much because this full page ad is so colorful and bright. Holly Byom took a lot of time to make this full page ad. Holly is so creative and artistic!

The short story by Serena Baehman is about how hard it is to take care of puppies and dogs. It is so cute and funny. Serena is one fine author!

It was so hard for me

My experience with making this magazine is that there was a demand for good articles. There also were problems

THE EDITOR

with getting starting up the Deadline Project. Some people had me go higher than I wanted to.

Sincerely,

Nici Breitrick

Editor in Chief, *Paw Pint*

LETTERS TO THE EDITOR

Dear Editor:

Your article about dog boots was amazing! It inspired me to buy some for my favorite little dog, Lonely. I think that Lonely loves the dog boots just as much as I do. The dog boots are so pretty; they are pink with purple polka dots and blue sparkles. The boots also help my dog during the winter months. Lonely just will not put one little paw outside without them on. I will continue to read your magazine forever because you helped me and my precious Lonely! Thank you so much!

Sincerely,

Jasmine Jacobsen
Imalone, Wisconsin

Dear Editor:

I have been receiving your magazine for quite some time now and absolutely adore the fashion tips for small dogs. My Chihuahua, Rosetta, looks so fabulous each day thanks to you. She just looks so stunning and I was hoping to know what some stylish trends are for this summer and different types of accessories that are exceptionally chic, such as collars and cute bows.

Also, a friend of mine is trying to figure out what types of dog food brands are healthy and acceptable for her Siberian husky so her companion can live a happier, longer life. So far she only found two yet still feels a little unsure. Do you have any recommendations? Please include this in your magazine and send me a copy of next month's latest issue.

Sincerely,

Katelin Thomas
San Francisco, California

Imalone, Wisconsin

Dear Editor:

I'm a person who is a very big dog fan, and when I found your magazine I knew I would be obsessed! This magazine is brilliant and really knows how to treat a dog like royalty. My dogs and I try out all your tips and tricks, and so far every one of the tricks works! I was so impressed I made all of my friends and family buy a subscription. Your magazine is informative, silly, fun, and shows me the proper way to take care of my pooch. Every part of this magazine is helping my dog and I grow closer! The magazine is not just for dog owners though, it also is for people thinking about getting a dog or that just love dogs! I recommend this magazine a must read for everyone!

Sincerely,

Isabelle Kruger
Greenville, WI

TV Shows for Dogs

By: Alyssa Hughes

Your dog deserves the best of the best treatment, no matter what kind of dog they are. When you take care of your pet, you monitor the fact that they have good food, a warm house, and lots of exercise. That's why you should monitor what your dog watches on TV as well. Here are a few different TV shows we find that dogs just can't seem to get enough of:

The first TV show we'll mention is called Top Dog. The series was originally aired in 2006 and has been going strong ever since then. This show will surely keep your dog on his or her paws, because it's a mystery show. The show is about a beagle named Champ who solves mystery after mystery, finding love along the way. Champ definitely knows how to capture the hearts of his audience, considering the show has won over 30 awards in the past 8 years. We recommend Top Dog for dogs ages 4-12, because there are a few mature-dogs-only scenes that can be quite gruesome for puppies. Either way, this show will have your puppy simply begging for more!

You are probably wondering what shows are best for puppies at this point. One show is called Puppy Love; it's based on a small puppy named Peanut who finds a loving owner after a long adventure across the world to find them. When Peanut finds his long-lost puppy brother, it will surely bring your pup to tears. The show will definitely be the perfect choice for your puppy because of its heartfelt message. The adventures Peanut goes on are very difficult and long, making your puppy want to go outside and make up his or her own adventures. Peanut the puppy is a great role model for your young pet, so this is definitely a show you don't want to miss!

Another great show for your dog is specifically for all of the lady dogs out there.

It's a show called Love at First Bite. The show recently began airing with star Fluffy McFluff, who just got back from acting in his most recent movie. All of the dogs who are girls will surely fall head over paws for the star of this show. Love at First Bite is about an average girl dog named Princess who falls in love with a vampire dog named Ashes. Together, they hide from the vampire hunting dogs and find true love. This show is appropriate for all teenage dogs that are a fan of Fluffy McFluff and his work in the movies. The show originally aired in 1924 as a silent film and is now being remade into a TV series, with extra scenes and episodes that are still based on what happened in the movie. And yes, this show does have sound! Your pooch is sure to love the upcoming series Love at First Bite.

The last show we are going to review is called Paw Protectors. It is about dog police that capture the most vicious dogs around and bring them to the vet, where they get all the shots required to stay tame and mild. The cool thing about this TV show is that each episode features a new dog celebrity guest. The show originally aired about five years ago and is about to end. If you don't want it to be the end of Paw Protectors, there is a fan-club meeting next week Friday about whether the company should keep it running or not. After all, the company asked the fans to see what they think. If your dog hasn't seen this show, they should! It is recommended for dogs ages 3 and up, because the scary villainous dogs may cause your puppy to shake and whimper more than it does during a bad thunderstorm. Your dog will be sure to love this tail-wagging show, maybe even more than playing fetch at the dog park!

If you care about your pet and what he or she watches on TV, you should recommend these great shows to them! They are the favorites of all the dogs around! If you want, you can visit the Dog TV Show

Association website to create a playlist of TV shows, so that your dog is notified whenever their show is on TV. Whether your pet enjoys romance, mystery, adventure, or teen-dog-heartthrobs, you'll surely find the show that your dog enjoys the most. When you find a show that you and your dog enjoy most, you will surely build a strong connection and bond with your precious pooch. Happy searching!

Stylish Dog Clothes

By: Rebecca Kamke

Every dog needs to be in style. There are many ways to dress your dog. Hats, coats, dresses and roller-skates are some fun ways to help your dog stylish.

Dogs can wear hats that are the color of the dog's coat or fur. There are different kinds of hats. For instance, the toy hat is both a hat and a toy. Dogs will love the toy hat it squeezes and it's good for a dog's teeth. Another kind of hat for dog is the party hat and winter hat. The party hats have a real dog bone on top of the hat and the hat has a golden color to it. Winter hats have real snow coming out of them so the dog can eat or lick the snow. The winter hat is available in blue and other colors.

The coats that dogs wear can come with wings on the back and all the colors of the rainbow. Dogs can wear these coats during fall and winter when it's very cold outside. Every breed of dog has its own color.

Young dogs can wear roller skates when the owners have time to take them outside to the dog park. It gives them the exercise they need. The skates come in different colors like gold, blue, pink, and the newest color called yellowbluevalley.

There are different kinds of dresses that dogs can wear like long and short dresses. The dresses are handmade by monkeys that are the finest in the world. If your dog does not have a lot of hair these dresses will keep them warm from the cold. The dresses come in different kinds of shapes, sizes, and colors and you can choose what best fits your dog's personality. Some of the dresses have pockets for the dog's toys, treats, and other important things. These pockets can also act as coolers if your dog gets too hot. You just place the cool gel packs into the pockets and your dog will stay cool for two hours. Dogs will love these dresses because they smell like meat and cat. I hope you will buy the

new golden colored dress for your dogs. Other owners and their dogs will be jealous!!

You might be asking where I can find these stylish, new, beautiful clothes. One of the finest clothing stores for dogs is located in Chilla called Nici's Finest Pup Fashion. As you enter this store, you and your dog both will be impressed with the sights, sounds, smells, and service! So if you are thinking about making your dog stylish, then go and visit Nici's Finest Pup Fashion today.

The Dog That Went Fishing

By: Kelsey Dietzmann

On a late afternoon there was a dog named Hershey. She loved to go fishing with her owner. They went fishing every day of the week, Monday – Friday. Well on a Wednesday after noon they went fishing, they had everything they needed to go. Like worms, fishing poles and fishing line ECT. Well on that day they were in the boat fishing and Hershey had seen something in the water so she jumped in to see what it was and get it if it was a fish. Well when she jumped in the thing she had seen was a sea lion fish they are the most dangerous fish in the world.

Well when Hershey's owner Tod had seen what she was going after he yelled and told her to get back to the boat. Well when Hershey heard her owner Tod she thought of going back but she did not. She thought if she caught the fish he would be proud of her for catching a fish. Well when she was swimming towards it she looked at it weird like it was going to eat her. So she swam closer to see. Her owner told her to come and stay away from that fish that she was going after.

Well when she got too close she noticed that it was a bad fish that she was taught not to go by. So she tried to swim back but the fish pulled her under, Hershey was so scared her owner tried to get to her as fast as he could. When he got to the place where she was swimming he could not find her. Tod was freaking out so bad that he jumped in for her. When he went under the water to get her he had seen this thing trying to come towards him he tried to get out of

the water but the thing that was coming towards him was Hershey his dog he was so happy that she was ok. They got on the bus to see if she was ok. But she had bite marks all over her. Tod was so scared he was going to lose her. So he brought the boat to shore. Tod picked her up so fast and rushed to the car to bring her to the vet. When he got there the vet and nurses took her to a back room where they help hurt animals. Well Tod was very worried it took the vet three hours till the nurse came out. She told Tod that she will be alright but she had to stay overnight so they make sure she is good to leave. Well Tod left and when he got home he started to cry. Hershey and Tod were like best friends no one got in their way, and not to forget they were great fishing buddies. The both of them would never forget that.

Well the next day Tod went to the vet to get Hershey. He got to the vet Hershey was waiting for him inside. When Tod got in and had seen what the fish did to her he was mad and sad but very happy to see her so was she. Well when they both got home he grabbed her and brought her up to his room to rest. Hershey was so spoiled that she got sick of it. The next day she tried to walk but she was too sore to get up. That day Tod had to get some groceries from the store. When Tod went to the store he was looking at the dog supplies, like dog food, treats, brushes, collars etc. so when he got out of the store he was thinking of getting a friend for Hershey. Tod went to the pound to look at some dogs. He was looking and looking till he found the perfect dog in the world for her.

Tod got home and yelled for Hershey. When he did he told her he had a surprise for her. He went in the back room and showed her this tiny puppy it was a nine month year old girl husky. Hershey was very surprised and wondering why he got that puppy. The puppy's name was Bella. Tod

loved that name. Well he told Hershey to get along with her and be nice. Tod left them in a room together she was confused and thinking what would I do with this thing. So she thought and thought until she figured it out, she was going to teach Bella how to fish. When

Four weeks later, Hershey's leg got so much better than it was before. Well they puppy was about one year and he was getting ready to learn how to fish. Tod took both of them to the lake to swim and fish. Hershey just jumped right in she was no scared at all, but the little pup Bella was really scared. Tod just through her right in the water. Hershey came to her and taught her everything she needed to know about fishing. Hershey thought she was ready to get started. When Tod brought her back to the lake two weeks later, Bella was ready to. She jumped right in and caught a fish in three seconds. Bella was so proud and Hershey was proud of her self for teaching her everything she had to know about fishing. They all went back home to bed after a long hard day of fishing.

Flying Dog

By: Nici Breitrack

Super dog is an awesome dog that saves people from fires, floods and crumbled buildings. Zach also could talk to people. His name is Zach.

When he was a puppy he was swept off his little feet because of a massive flood in Hawaii. He never saw his ten brothers, sisters or his mother again. He was scared to death as the rushing water came over his head. He needed to come up from the water to catch his breath over and over. It was doubtful that he was going to make it. He gets pulled under the water again. He was out of energy from paddling with his little feet and ready to give up when a little, chubby hand from above the water reached down in the water and grabbed the soggy, limp, tired, brown puppy.

That little, chubby hand belong Jack in a rescue boat. Jack was being rescued himself when he saw Zach in the water. Jack said to the man that was driving the boat, "Stop the boat and go slow, I want to save a puppy who was drowning."

When Jack pulled Zach out of the water, Jack started to dry Zach off with a towel Jack had in the boat. After Jack dried Zach off Zach started to lick Jack all over his face.

When Zach got to the rescue shelter he asked his mom if they could keep Zach. His mom said "Yes because you saved him from drowning!" Jack was so excited to keep Zach. Zach was excited to stay with Jack. Zach knew that Jack wanted to stay with him because Jack stated to bark at Zach.

Zach and Jack were play outside of the rescue shelter. They were having fun outside in the warm weather. Zach and Jack were playing with a ball.

After Zach and Jack got done playing with the ball they went inside to

cool off for a while in the rescue shelter. Zach was drinking so water and Jack was drinking so water out of a bowl that the rescue shelter had. After Jack and Zach was done they went back outside to play with Zach's other friends who were at the rescue shelter. The boys were playing with Jack he loved all the attention from the boys.

When all the boys got tired they went inside to catch their breath Jack was not there in the rescue shelter. Zach was getting worried about Jack his best friend. Zach did not have to get all worried about his best friend because he was lying down on the bed in the rescue shelter.

But then a couple minutes Jack was gone again by now Zach was super worried about Jack. Jack was on a hunt for a little boy who was going to drowning. Jack was using his super flying skill to save this little boy from drowning. Jack did save the little boy.

After Jack got to the rescue shelter Zach was crying because he thought that Jack left Zach. Zach asked Jack "What he was doing." Jack said "I was saving a little boy who was drowning." Zach was so glad that Jack was back in his hands.

From that day on Jack took Zach to the rescues he did. Jack had a lot more rescues to do and he took his best friend with him.

After Hawaii rebuild their houses Zach and his family was so excited to get back in their new home because in the rescue shelter was so filled with people it was too loud hear yourself think.

Zach was excited to go back in his new home too because he and Jack could play in a bigger area in the yard. Zach and Jack played outside every day in their new back yard.

When Zach and Jack got done playing outside every day his mom would make Zach some tasty drink. The drink that

his mom made is a smoothly the smoothly
was all different flavors.

Jack and Zach are now best friends
forever. Jack has so much fun with Zach.
They will stay best friends though the bad
and good.
