

## Morgan the World's Best Softball Player

Some people say Morgan is the best softball player in the world. It all started when Morgan was born. She could throw a ball all the way to Mexico. When Morgan was two she could hit the ball to China.

As she grew older she was the world's best softball player in the world. Morgan had to go play against the best team, but the problem was that she had to go all the way to Australia. That was 14 hours away. Finally, 14 hours past. She was there. Morgan was very nervous and scared. She only had eight players on her team. The other teams have 14 players and those people were as big as a Hortonville. They were about to play the game, but Morgan could not find her helmet. Then Morgan said, "Hey that's

my helmet." Then the game started. They got to bat first and Morgan was the first one up to bat. She took a few practice swings and then stepped into the box. The ball came straight to her and she missed the ball. Morgan's team was not impressed. The next pitch came in even faster and Morgan hit the ball. Clung!!! Went the ball. And that ball went over the fence and Morgan got a home run. The fans went wild. Morgan's mom went wild. Finally, the score was 41 -41 and the game was almost done. Morgan was the

last batter of the game. Then Morgan hit the ball all the way out there. But the ball hit somebody. "Ow," the girl said but she was okay. The game was over, and the score was 47-41. Morgan's team took gold. A couple days later Morgan died. But fans still say they can still hear Morgan when she hits the ball.
