

THE ARCHERY QUEEN

Have you ever heard of the great archery queen? She was the greatest.

But all those tall tales were a myth!

Because I'm the only one that

knows. It all started like this...she was just a little baby, but not like all babies. She took her dad's bow and shot a deer. Later then her parents named her BRAELYN. Her nickname was THE ARCHERY QUEEN!!!!!!

But nine months later her parents said, "You're going to have a baby sister!!!!" At first Braelyn liked that idea but when her sister was born Braelyn felt left out. So that night Braelyn went to shoot the biggest deer ever with her bow. And surprisingly she

did. Her parents were proud of her. Then two seconds later the baby started to cry. And the baby cried till MIDNIGHT!!!!!! Ten years later it was Braelyn's birthday and her parents said, "the baby won't bother us today because she's at grandma and Grandpa's house." She was so happy she thought she was going to die!! That night the family came together, and all agreed to name the baby KINSLEY. She was as tiny as a mouse. Then one day when Braelyn was 18 she told her

mom, dad, and sister that she was leaving. She took her bow and headed off. "BYE!" she yelled. Then she headed out. After that a few years later she saw the best archery team in the world!!!!!!

She was so excited she asked if she could be on the team. And by her surprise they said, "YES!!!!!!" But later that evening she realized she could be on the team, it was because.... THEY WEREN'T DOING GOOD!!!

They had to face the second-best team in the world. So, Braelyn helped them.

After that the game started it was 99-98 and Braelyn's team was behind by 1. But Braelyn changed that at the very last second, she hit a bullseye and broke the arrow so that got her 100 points!!!!!! But that night one of her enemies shot her and in the morning she had the biggest funeral anybody has ever saw. Braelyn's death was all over the news, but people still say they can hear her whisper, "I will get REVEGE!!!!!"
