

## Lucas the Greatest Roller Bladder

Have you ever heard of Lucas the  
greatest roller bladder that ever lived?

People say he was born with roller blades on. He was going 1mph by five months! When he was six, he joined a team. By now, he could go 3mph! He won EVERY race. As he grew older, he became faster and better with roller blades. By the time he was 37, he said he could go 100mph! Every time he came home from school and races, he rode his roller blades. Finally, he was 40, and he could go 104mph! It was a nice Saturday. Lucas was strolling along the sidewalk roller blading obviously, but at a slow pace.

Then, a big shadow started to loom over him. He looked up and saw a big machine towering over him. It was at least ten feet tall! And the guy in the machine said, "I'll challenge you a race. ". "Okay", said Lucas. And that tiny conversation went all over the world! In newspapers, on the news, everywhere! So, Lucas called a building crew called builders source 1. He told them to build a one-million-foot wood board! It was free because it was for such a special occasion. It was done in 5 months and 13 days. The town agreed

that the competition should begin on July 21st. Finally, the big day came. Lucas was the 3rd to arrive! In about two hours or so, all the people had arrived. There were about 6,000 people at the contest! Lucas was tense, tense, tense! Finally, the judge said, "three, two, one, GOOOO!" Lucas and the machine were off. Lucas was going faster than he had ever in his life. He was going 142mph! He could hear nothing but the wind blowing against his face. To Lucas, the time went by fast. The competition lasted 6 hours. To Lucas

it was hour one, hour two, three, four, five, then finally, hour six. "TIME'S UP!!!!!!", shouted the judge. Both Lucas and the machine skidded. A man came out of a door at the beginning with a tape measure and measured the distance both Lucas and the machine went. First, he did Lucas, then, he told the judge the distance Lucas went. The judge shouted, "13,072 FEET FOR LUCAS!" Everyone cheered. "AND FOR THE MACHINE... it was so quiet you could hear a pin drop. 11,981!!!!!!!!!! Everyone was

W-I-L-D. People jumped out of their seats, pounded on their seats, and some people even went onto the court and started jumping and screaming. Then, something unexpected happened. Lucas collapsed. And there he lay, dead. People say that if you go to that one-million-foot court, you can still hear the rolling of Lucas's roller blades.
