

The World's Best Fisher

The first day Mallory walked on the earth she caught a fish in her mouth.

As she grew up she went fishing with her friend, Lillie. Then she went in a

tournament with Lillie. When she went in the tournament there was a BIG shark!

Then the shark poked the bottom of the boat, BOOM! Mallory said, " Lillie, I need all the cloth you can, and I need duct tape to patch up the hole in the boat!"

After she patched up the hole, the boat started to sink, Mallory said, "I need wood, screws, and more cloth." After she stopped the leak, she caught the biggest Muskie in Lake Michigan. It was "25" ft long! And they won the tournament and was very happy. Then Lillie and Mallory went

together and went to bed. After that Mallory left, no one really knows what happened to her, people say she went to Canada and others say she went to California. But some people say if you listen closely you could hear her casting on Lake Michigan. And LOTS of people still think of her today!
