Proven to be successful for catching: Walleyes, Northern, Haddock,
White Bass, and Salmon

Dear Readers,

Thank you for buying this new issue I can't believe you bought this new magazine issue thank you in advance for helping me because I donate 30 percent of the profits to charity so I hope you like the issue and thank you again. The reason I decided to make this magazine is I just wanted to share my views on hunting and fishing and mostly the outdoors. Thanks again guys and gals for buying this.

Sincerely,

Brayden Bellile

Turkey Hunting 2014

The 2014 Wisconsin turkey hunting season starts in the middle of March and runs to the middle of May. If a person would like to apply for a kill tag, you have to fill out an application and send it to the Wisconsin Department of Natural Resources (DNR) typically by December 10th of the previous year. If you draw a tag, it will be mailed to you around the middle of January. There are 7 zones of hunting throughout the state to choose from, zones are areas where you can hunt. There are also 7 time periods (days) which you can hunt. You will need to go and purchase a license if you are successfully drawn to receive the tag. A resident of Wisconsin's tag costs \$10.00.

If you do not draw a kill tag, leftover tags will be sold on a first come, first serve basis on March 22nd. If you did draw a tag and would like another one, you can purchase an additional one on that date.

The DNR will send you a time frame from morning to night referring to the start and finish times of shooting hours.

The state also publishes a map of public hunting areas if you do not own your own land, or if you do not have permission to hunt someone's property. For questions or concerns, feel free to visit the website for details at dnr.wi.gov, search for Turkey information.

Hunt safe and make sure you abide by the rules!

--	--

YOU dont have to be a millionaire to have the hunt of a lifetime. believe me I went to canada to hunt and complete the Grand slam (killing a kodiak bear, moose, black bear, and polar bear) and the best part is it only cost \$1000 for 2 weeks plus amo!! and i had a great time but it kinda made me sick or eating steak after 2 weeks straight.

all in all it was one of the best experiences in my life. one of my favorite parts of the hunt was actually at camp the guides were funny and nice they also cooked awesome steak I would definitely recommend Winkleman Outfitters to anyone wanting to hunt or fish in Canada

I can still feel the canadian twigs crunching under foot, still smell the maple in the air, feel the cold rifle bore on my hand in the early morning hear the bear walking under my tree stand, and most of all I remember the fear of the black bear 20 feet away from me the thrill of seeing the bear then overcome by fear as he ran towards me but luckily I took one shot and dropped him at 20 feet away then the feeling of its warm guts as I gutted it.

Camp Manitowish by Marisa Rech

Summer. A time to relax and take a break from school. You can play in the sun all day and sleep in until noon. But most of us know we spend most of the time sitting around and watching TV, playing on our mobile devices, and being bored.

Say goodbye to that, and hello to Camp Manito-Wish!

Camp Manito-Wish is an overnight camp in Boulder Junction, WI, located on beautiful Boulder Lake. It is a YMCA camp that teaches leadership, friendship, and teamwork.

You will stay in one of about thirty cabins in the woods with two counselors and nine other campers of the same gender for two to four weeks, depending on which of them you sign up for. You are allowed no technology except a camera and anything health-related.

Each morning, you wake up at 6:00 am and eat breakfast at Nash at 6:30 am. Nash is what the eating hall is called. It is a gigantic building with about one hundred tables. In the front of the eating area, is a fireplace surrounded by an area for announcements to be made. You eat lunch and dinner there, too.

During the day, you and the rest of the camp will go to the different program areas. These include swimming, canoeing, kayaking, sail boating, nature exploring, biking, berry picking, archery, guns (not bandanas, disposable

violent), horse riding, tennis, and arts and

Crafts. You will be able to do two of them on your own and one of them with the rest of your cabin.

At some point during your time at Camp Manito-Wish, you and half of your cabin will go on Trial. Trail is a trip you go on that is either hiking, canoeing, or kayaking for between three days and sixty days, depending on what you signed up for. You leave camp with bags which include the Grubber, which holds food, two bags that hold personal items such as clothes and stuff, and the Wannigan (box that has plates and utensils and such. It is very heavy and bulky).

At camp, you have the option of either bringing one of camp's paddles with you, or you could buy and design your own. You can buy blank wooden paddles at the camp store, also known as the Trading Post, and bring it to the arts and crafts building. You have the option of either painting your paddle or wood-burning it. Wood-burning is what it sounds like, you take a wood-burner, which looks like a big pen with a 600 degree tip, and you burn a design into your paddle. After you paint or wood-burn your paddle, you have to waterproof it, then you can take it on Trial with you if you want.

As I mentioned before, the Trading Post is the camp store, where you can buy

cameras, sweatshirts, headlamps, etc.

So, if you are looking for a way to cure your boredom this summer, consider Camp Manito-Wish. You could create memories to last a life time.
