Dear Editor,

I love your magazines. Especially last months. That was amazing. My favorite article was the one on fashion and things to wear. I love everything about your magazines. I love doing nails. Do you? Let me know.

~ Lauren S.

I LOVE your magazine! I have subscribed to ALL of your mailings, magazines, ALL OF THEM. I would suggest having a little bit longer YIKES!!!! Section that you have at the end of the month. It is one section that literally my entire friends look at I just wanted to say thank you for having such an AMAZING magazine and I

hope I can one day I can join your forces :)

~ Amelia C.

I really liked that in your last magazine it featured an article on headbands and how to wear them. It gave me ideas on how to take leftover pieces of silk and make them into personalized headbands for me and my friends. It is also a great way to make money since I started selling them and taking orders of what the people wanted. I hope you can make other articles that are just as enjoyable for others as that one was for me.

~ Masin K.

Special Tips on Scarf Wear
Page 15

Letter from the editor;

Oh hi did see you there, here is a little about my magazine. I received a lot of article and only a bunch of them I could use in my magazine, so I hope that you enjoy the articles that I used.

This magazine was a lot of work, from the articles to the filer ads. It is fun to see the start and then all of a sudden the final product.

I hope that you can enjoy and get great tip from my hand picked writers, Speaking of writers I picked at least 15 different writers some including, Laken Schmidt, Amelia Coker, Payton Brennan, and Carson Buss.

Some of my favorite parts were when you were getting g a new article in and you were so surprised at how good it was. Another fun part would be when I got all my article that I needed to done. Also it was fun to do a lot of different topics for different people and she what a job like this would actually be. I liked being able to pick the topics some were really fun and easy and others I just did not connect as much.

Now that I have talked and talked about the making of my book we should talk about me.

My name is Lauren Halverson. I have a brother (Brady), Mom (Stephanie), Dad (Paul). I have a cat named Maggie, and a hamster named nibble. Maggie is 7 she is very fat like 17 pounds. Maggie has a thick gray coat and she loves to cuddle. My brother is 13 years old he plays basketball so sometimes we bond over basketball. I and my mom both love to cook and enjoy excising together. My dad he coaches me for

basketball and everyone asks if it's weird I say no not really.

Now here is a little about me, I am 11 years old I love to play softball, and basketball. My hobbies are to paint mine and others nails my mom says that that is my talent. I enjoy hanging out with my friends and also my family.

O I almost forgot to tell you my middle name is grace, because my parents loved the song amazing grace. So my mom calls me Gracie. That is all for now please follow my magazine. Hope my magazine gives you great tips.

The Unexpected Haircut

I woke up and got ready for school like any other weekday morning. I looked out my window and saw small snowflakes falling from the sky. I took a peek at my calendar that I rarely look at and saw a big circle around tomorrow. Inside the circle I saw the words *Winter Formal*. I was going to go with my friends Kylie and Jenna. We all have picked out our dresses and mine was blue with sequins on top. Jenna is great at doing her hair and Kylie's mom is a professional hair dresser. I'm going to braid my hair into a fishtail braid for the Winter Formal. I put my clothes on, brushed my hair, and went downstairs to eat some cereal. My mom was downstairs eating cereal too. I poured some milk into my cereal and I ate it. I went outside and saw my bus coming. When the bus stopped at the end of the driveway I got on the bus for school.

At the end of the school day I was waiting for my bus to come. I was talking to Kylie and we were talking about the winter formal. A kindergartener was walking past with scissors in his hand. I asked him why he had scissors. He said that he wanted to run with them. I told him that he shouldn't do that. The kid took his scissors and I heard a loud *SNIP!* My neck was suddenly cold. I looked behind me and saw a pile of long, beautiful blonde hair. My hands shot up to my head and found that my hair got an unexpected hair cut. I screamed and I heard Kylie half yelling half talking to the boy. Mrs.J was coming toward my way. I tried to hold back tears as Mrs.J was talking to the boy and I could only make up a few words. Kylie was by my side trying to cheer me up. My bus pulled up and got on. Kylie followed behind me. I heard people making fun of my hair. Kylie was trying to stop them from calling me names. I sat by the window with tears streaming down my face. The Winter Formal is ruined! What am I going to do? painted so that they would

My hair looked terrible because of what that kindergartener did to it. When my stop came, I got off the bus and ran to my house. When I got in my mom saw my hair and asked me what had happened. I told her everything. I asked her what I should do. She said that I should call Jenna and ask her because she is great with hair.

I called Jenna and told her what happened. She said that I should go to a hair salon called Salon 87. I told her that I didn't want it to be any shorter than what it already was. She said that I should trust her and that I have to be at Salon 87 by 5:00. She said that I should call Kylie too and tell her that she should come too because we could all get our nails done too. I called Kylie and told her to meet me at Salon 87 at 5:00 like Jenna had told me to.

When I got there, I saw Jenna and Kylie waiting for me. There was a lady that was waiting with them that I didn't recognize. She introduced herself as Peggy. Peggy circled around me to see how bad my hair was. Peggy said that it would be an easy fix. I felt a bit worried as she showed me where to sit. There wasn't a mirror because Jenna said it would be a surprise.

A half an hour later, Peggy announced that she was done. Jenna and Kylie walked over from the chairs where they were reading magazines. They both said that it looked amazing. I asked if I could see it and Peggy left to get a mirror. She came back with a mirror and held it up. My hair was cut into a neat bob. It looked so different, but in a good way. Jenna, Kylie, and Peggy were waiting to see if I like it. I said that it looked wonderful. Peggy left again and came back with a black headband with a flower on the side. She put it on my head and she smiled. I smiled back and said thank-you. Jenna, Kylie, and I headed over to the manicure and pedicure section and got our nails

match our dresses. We talked about my hair the whole time. I thought that my hair looked great and my friends thought so too.

On the night of the Winter Formal, I was dressed in my blue dress. I was having lots of fun dancing and talking with Jenna and Kylie. Lots of people complimented me on my hair. It was a great night and I guess the unexpected haircut wasn't that bad after all.

THE TIME I CUT MY NAILS

Lucy collected her fingernails since age 12. Yep I said 12. What makes this a tad bit stranger is that Lucy is 13 years old. And if you can figure that out she didn't cut her nails for 12 years! Yes people I said 12 years! Lucy was proud that she cut her fingernails all by herself without Mommy. So that's why Lucy kept her fingernails, for proof. Though Lucy had to keep them secretive because her Mommy would KILL her because, I mean how gross! But Lucy knew she had to keep them because her Mommy often calls her a "baby." Lucy kept them in a little plastic baggie entitled "*Lucy's Own Fingernails 1.*" About 2 weeks later it was time for Lucy to cut her nails again. Lucy decided to be a "big girl again" and cut them and put them into another little plastic baggie entitled *Lucy's Own Fingernails 2.* Every 2 weeks or so Lucy put her ten fingernails in different little plastic baggies for some time now. But now Lucy was faced with a problem. You want to know? Well keep reading. Lucy was a VERY pretty girl but with her fingernails over 7 feet long prior to cutting them, people considered her a weirdo. Lucy though didn't want to be a weirdo anymore; in fact she wanted to fit in. Now at Tuckerville Middle School the so called "popular girls" all wore nail polish. Now Lucy obviously loved her nails, because not many people could deal with 7 foot long nails, and Lucy was used to plain old white nails. She wanted a change. She went to her Mommy and asked if she could have nail polish of her own. Mommy didn't hesitate with YES and asked why she didn't say so sooner. Mommy drove Lucy to the local Johl's in town to buy some nail polish. Lucy wanted to get pink because she loved ANYTHING girly with purple rhinestones. And you betcha Lucy's Mommy bought it for her. Lucy was overjoyed. Lucy painted her nails the next

day for school and people could not believe it. Lucy was told so many times how beautiful her nails were. But this was not really what Lucy was envisioning. She wanted people to treat her nicely rather how pretty her nails were or not. Lucy had heard about a charity called "*Nails for Kids*" this charity was for people who had a disease called Misafanakia which can cause you to lose your nails or just damage them. Lucy called "*Nails for Kids*" and explained her situation. Now for once in Lucy's life she wasn't made fun of. In fact these people were grateful. She was brought to Hinderson Children's Hospital. She went that day to Johl's and bought thousands of dollars' worth of nail polish, glitters, and sequins. She thought instead of just giving these little children her nails she would make them feel very special. And oh she did. One girl in particular that is. Her name was Georgette. She was a 4 year old who was suffering Misafanakia which is life threatening. Lucy remembers her because of her spirit. Georgette was overjoyed when she heard the news. Lucy began gluing on her nails with such joy, she was so proud of what she was doing. When all of the nails were glued on to the empty skin, Georgette picked out her colors. She chose 10 different shades of pink because for her it reminded her of a princess.

Lucy drew on with nail pens pretty princess crowns. She also added pretty gold glitter. Georgette started crying she was that happy. Lucy had so much appreciation from all of her clients suffering Misafanakia. She had made a difference in those little children's life. Lucy decided that this was such a huge success and an uplifting experience that Lucy made this world-wide. Lucy spoke at benefits, at the White House, charity events, hospitals, schools (etc.) Now every child suffering Misafanakia got gorgeous nails all from donations. Most people think sharing cut nails is a gross thing, but Lucy lightened all of her client's lives. To some people it's gross but to them it's a life changer. Lucy never was told she was weird again. I mean from just a quick judgment you'd think 7 foot long nails are gross, but man they made a difference. The popular girls at school didn't call her a weirdo anymore, they A. thought her charity was fantastic, and B. they all became best friends. At this point in Lucy's life, lots of people were proud of her, not only her clients, but her Mommy. Lucy's Mommy was so happy that her daughter wasn't being a baby anymore. In fact she apologized to Lucy for calling her that. Lucy became a Nobel Peace Prize winner, for just as simple as saving her 7 foot long nails!

Celebrity Hair

Want a hairstyle that is mega trendy?

Ask a celebrity!

Celebrities love to be in the limelight and their hairstyle needs to be on the cutting-edge.

Leave it to [Megan Fox](#) to bring a bombshell look out with one of the first hairstyles in 2013 that is called "The Deep Sweep". To create this look start with wet hair and apply mouse from the roots to the hair ends. Then hair is layered over the top with an oil hair treatment. Next, blow out hair using a round and coat the strands with an invisible hairspray.

Use a one-inch barrel curling iron to curl, pinning the curls. Let hairspray dry, then, finally, take the pins out and brush with a bristle brush to one side. Try this for a [Megan Fox](#) moment.

The girl-next-door, gorgeous thick bouncy blonde locks of [Carrie Underwood](#) could be enough to drive anyone mad. Carrie says that dry shampoo has changed her life stating when he has not colored her hair in a while, she will spray dry shampoo right in her part and that will take the edge off if you want her taste of hair, try the following:

1. Take a shower and scrub your scalp hard.
2. Let hair almost completely dry.
3. Separate your hair into 3 sections.
4. Curl the sections. You can do so using large hair curlers or a large curling iron. You want to curls to be big. When the curlers are in, spritz a *little* hairspray on the to-be curls.
5. After about 20 minutes, or when your hair has completely dried, remove the curlers. You can blow dry it if you need to. Take the curlers out carefully so you don't ruin the curl. Fix anything that needs to be fixed. Try this to, perhaps, rise to fame like [Carrie Underwood](#).

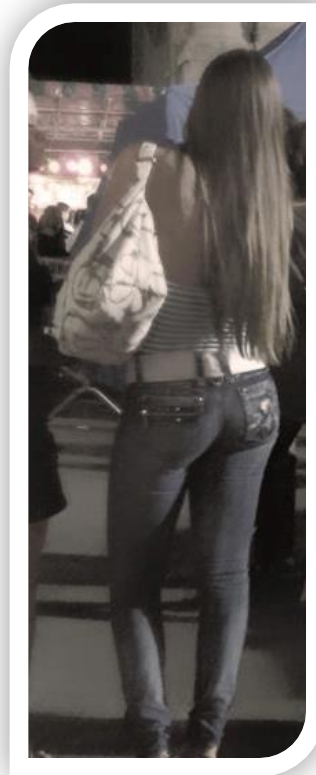

The woman who made "fierce" and "smize" famous has worn many hairstyles while being on the catwalk and she isn't afraid to change it up. [Tyra Bank's](#) real hair length and color was a bit of a mystery until she shocked the world, in 2009 and removed every piece of weave from her head and showed the world her real, dripping wet hair and it was long, luxurious locks. No surprise there as she can rock with the weaves or her real hair. Her best comment on her real hair was that scalp massages in the shower help to it healthy and grow faster. So, it is easy to say that any hair style, being it smooth and straight or big with voluminous waves or either blonde, red or brunette, that "Hello Beautiful" still belongs to [Tyra Banks](#)!

Come and Get it with a Selena Gomez hairstyle. Teen queen and Disney Channel

star naturally wavy hair doesn't require a wizard to style it. The following is a way to have hair like her. 1. Decide if you want to have Selena's long, or shoulder-length hair. Remember to you need full side bangs with fringe if you're doing the long hairstyle! 2. Wash your hair with shampoo and dry your hair so it will not drip. 3. You will need to blow dry your hair upside down. 4. Spray it with hairspray and immediately afterwards slip the round metal can underneath then remove. This adds TONS OF VOLUME. 5. Section off your hair in layers and straighten it, then slightly tease the roots of your hair. Now, you can show off your Selena Gomez look...but remember what she says: "Be yourself always, there's no one better!"

It would be a big fat lie if Lucy Hale, one of the stars from Pretty Little Liars, was not told her lovely long brunette hair was simply glamorous. Her soft waves are gorgeous and can be effortless to create. To design her look: apply a dry shampoo. This gives your hair extra body. Next, part your hair to one side and using a large-barrel curling iron, curl just the hair that frames your face. Curl this hair away from your face. Finish by brushing through to soften the curls and blend this hair with the rest of your hair. Never underestimate a pretty little liar, especially one with seriously amazing hair like Lucy Hale.

The list of celebrities with trendy hair could on and on. It is part of their job to make sure their Hollywood Star does not go out.

Winter do and don'ts

By: Rosalie Starkweather

Do: wear long socks if your wearing shorter bottoms. But make sure they color coordinate... Unless it's crazy sock day at school. Do: layer your clothes. It looks great if your top shirt has many colors. I love to wear cardigans/jackets when its cold because you can just take off one layer or put one on and still look great.

Do: braid your hair, it has a cozy look and feeling to it during the winter. Do: wear cute ear warmers/hats. Just because it's cold doesn't mean fashion has to be out. Do: wear some oversized clothes. But don't drown yourself.

Do: Wear maxi skirts, just because it's winter doesn't mean you have to put them all away. Do: wear bold and deep colors. I think its pretty if you also add a little bit of white mixed in. My top winter colors are blue, purple, and red. I think all three blend in great during this time of year.

Do: wear button down shirts. I think they are extremely comfortable and the great thing is, is there is many different styles. They work great with a scarf if you have a plain colored shirt.

Do: wear leather (or look alike boots) if you're aiming for a comfy but dressy kind of look. I love to wear my boots with dresses. I think they look amazing. Do: wear leather or jean jackets. They both give you extra length to cover your arms up and you can stay warm and cozy. Do: wear belts and button up tops.

Don't: wear UGG boots when you're

wearing a long skirt or dress. It just doesn't look good at all. Don't keep your chap stick in your pocket, then when you take it out you apply a gross thick layer.

Don't keep wearing the same sweater or cardigan day after day. The variety is welcomed. Don't: wear leg warmers when not needed to in your outfit. Sometimes it's just too much. Don't wear heels with a nice cozy outfit. Do you want to be casual and comfy or dressy? You take your pick.

Don't: bundle up without any room to breathe especially if its 50 degrees. When you wear leg warmers, long socks, a huge scarf, puffy coat, a big hat and winter boots you become to look like a marshmallow. Don't: be afraid to dress up your outfit with a hat. Now I'm not talking about baseball hats. Im talking about beanies and cute normal day hats.

My top 5 favorite stores to get cute clothing from are:

1. Discovery Clothing
2. Sears (They have some really cute clothes and shoes that are for an amazing price)
3. Forever 21
4. Aeropostale
5. Delia's

I hope I have helped you and your winter outfit picking and shopping. If you would like to check out my blog at www.fashionspectacular.com and you can see my everyday outfits. Thank you all.

Hair Galore

I'm going to talk about hair. If you don't need to know anything about hair that this is not the article for you. I'm going to talk about the styles and the way you can to do your hair.

Some days do you just not know what to do with your hair? Well one of the most popular hair styles is a bun. There are many different types of buns, for example: a Cinderella bun, a messy bun, and many more. I will talk about these 2 in this article.

I am going to talk about the Cinderella bun now. To do the Cinderella bun you have to put your hair in a ponytail. Then you have to grab all of your hair and start twisting it. When you twist your hair it will want to start rapping around the center of the ponytail that is fine you want that to happen. Once you twisted your hair as much as you can you have to wrap it around the center of your ponytail. Once you are done with that you want to put a ponytail rubber band around the bun to keep it in place. Once you are done with all of those steps that you are done making your bun!

To make the messy bun you start with one rubber band. You will want to already have your ponytail in a bun.

Once you did that you are ready to make the messy bun. First you want to have a rubber band on your wrist. Then you want to take your ponytail and you want to start the same way you would to put your hair in a ponytail but right when you're about to pull your hair through you want to rubber band to still hold on or catch about an inch of your hair. Do that over and over till the bun forms.

I hope those new hair styles were helpful. I hope I did a good job explaining them to you. For more tips and new hair styles go to www.coolhair.com and thank you for reading!

Celebrities Create a New Trend of Nail Art for Weddings

Celebrities across the United States have created a new fashion craze, nail art for their wedding. It is a new trend for the 2014 wedding season and you can customize it.

Every bride wants to have beautiful nails and thanks to Hollywood nail experts, every celebrity can have one of a kind nails for the occasion. There are many styles to choose from and every color imaginable,

For fall weddings, some celebrities are choosing oranges, reds and yellows. They can get velvet decals and also can get leaves painted on their nails or pumpkins if they would like.

Spring weddings can choose pale pastel colors. Celebrity brides are choosing flowers, suns, and four leaf clovers as custom designs.

Summer wedding nail choice include bright colors like yellow, blues and greens. Customized art includes suns, fireworks and trees.

Winter wedding nail choices are in colors like red, blue, gold and white. Celebrity brides ask for mistletoe, bells, and holly as nail decorations for their special day.

Celebrities also have theme weddings. They can have designs done like seashells and starfish for a beach wedding, or beach balls. Ofr vegas style weddings they could have cards or money painted on their nails.

Other popular designs are also big for celebrity brides this year. Some of them are using their new last name initial on their big toe. Others use hearts, or wedding rings, We even caught a well known celebrity sporting diamond accents in her nails.

Besides designs, celebrities are using different kinds of materials to accent their nails. Some use diamond dust. Others are using jewels in their nail polish. Others are putting things like rose petals and goldleaf on their nails for show.

Many people want to do what celebrities are doing. Here are some helpful hints when you are choosing nail designs for your own wedding.

1. Make sure you go to a well known nail salon that has good service. Some are cheaper but they do not have good quality.

2. Pick colors that are in your season and that match your wedding party. You do not want it to stick out too much or clash with your dresses.

3. Pick a design that looks like you. If you are fun, pick a fun design and if you are serious maybe something more serious.

4. Make sure that you and your bridesmaids have either colors or designs that match. Pictures will look funny if people do not match.

5. Be sure to make your appointment the day before or day of your wedding. If you make it sooner than that, your nails might chip.

6. Don't forget about your toes!! You might want to kick your shoes off at the reception so you need great looking toes. Treat yourself to a pedicure while you are there... they are GREAT!!!

7. Make sure you let your nails dry a the way. If you don't then they will chip.

8. Choose contrasting colors for your design. This will help make your design stand out. Light and dark combinations also work.

9. Don't be afraid to use glitter and sparkles. SEquins makes everything fun.

10. Offer to pay for your bridesmaids and give it as a gift. It is fun to spend the time together with them.

So now you have heard it right here... the latest trend in celebrity nails. Customized nail art is one of the most popular ways to make celebrity brides unique. With these ten tips, you too can look like a celebrity at your own wedding. Well, your nails will for sure.

The key to accessorizing is doing what you want. If you don't like the way something looks, then don't wear it. If you like the look, feel, or the style of something but don't like the price, look at a consignment store or go online.

Bracelets

Bracelets are a fun and fashionable way to finish up an outfit. Bracelets that have inspirational words or quotes on them are the perfect gift or just a fun thing to have.

Necklaces can be really cute if you wear it correctly. If you wear a super long necklace, try folding it up so it is a little shorter. Shorter necklaces (the ones that hug your neck) are not the most comfortable necklaces but they can look good depending what you are wearing.

If you love to wear boots with your leggings, its actually a really trend that is now in! Black leggings and dark brown boots go together perfectly. If it is the middle of winter and you know that your feet or ankles get cold in boots, wear leg warmers. Leg warmers keep your ankles warm and look really cute underneath your boots.

Nail Polish comes in billions of colors and styles. There is so much you can do with it! You can do so much with it and when you mix different colors (ones that look good together at least) it most likely will look

styles. There is so much you can do with it! You can do so much with it and when you mix different colors (ones that look good together at least) it most likely will look BEAUTIFUL! Adding some glitter or sparkles will really make it pop especially on fingers.

If you wear socks with some shoes, please make them match! If you wear slip on shoes usually I'd say don't wear full regular socks with them. But today my husband made a big deal about how I am going to get frost bite on my feet because I wasn't wearing socks. So I felt bad that I put black socks on and I wore my black slip on shoes and I have to admit that it actually looked kind of cool with my black yoga pants.

I wear hair clips in my hair all the time and I learned over the years to NOT wear big jumbo hair clips! If they are too big they might fall out or just be too distracting. If you look in a mirror and you can see the hair piece, I think it's a no. For some people it might be cute but most likely not.

If you live in the cold winter and you don't like wearing hats but you want to find something that will keep your ears warm, wear a headband. Headbands are a super duper cute to accessorize and they keep you warm! They don't cost very much money so you can really get more bang for your buck!

Color

By: Ceilidh Gijsen

In this article I am telling you how pick the colors for accessories . There are many color combinations. Like sea green and sky blue and mac & cheese and hot pink and dandelion and Purple Heart.

Colds and warms and blacks and silver and gold. And of course the other shades of red, orange, yellow, green, blue, and purple match and the blacks and greys. But what about the metallic gold, silver, bronze, copper, and others they

can be used with black and dark colors.

Scrubby Dubbin Shampoo

&

Dubbin Scrubby Conditioner

**It's better than the original
shampoo and conditioner it
freshens your head as your
scrubbing its only \$5.00 for both
that's \$5.00 dollars!! And if u order
online its 50 cents off at
www.scrubbydubbin.com**

**WARNING: YOUR HAIR MIGHT
FALL OUT JUST GO TO THE WIG
SHOP AND BUY A WIG.**

Scarves

Do you have that one scarf that sits in the back of your closet because you don't know what to do with it? Well if you do this article might help. There is so much to learn about scarves and this article will teach you everything you need to know about them.

Let's first start with your scarf; any scarf will look great if you know how to wear it right. If you have a thick wool scarf, it will look great over a jacket in cooler weather. If your jacket is busy and colorful you might want a plain colored scarf. If you have a more simple jacket you could dress it up with a scarf that has more colors and textures.

If you have a cute thin and silky scarf it would look adorable with a plain colored long sleeve shirt or blouse. You want your scarf to match somehow with your outfit but you don't want your scarf to be the same color as your shirt. You just want your shirt to be an accent color from your scarf.

There are many different kinds of scarves and ways to wear them. The most popular kinds of scarves are: infinity scarves and single scarves.

You can wear the infinity scarves just around your neck once or if your infinity scarf is longer you can double it. To double it you have to put the scarf over your neck then twist it once (like you would putting your hair up in a ponytail) and then put it over your head again.

With the single scarf you can make many designs. One of the more popular ones is called the pull through. How you do it is you take your scarf and you fold it in half then you put it over your head like it is

one strand then you are going to take the side with both of the ends and pull it through the other end that is a loop.

I hope my tips on scarves were helpful now go and dazzle your friends with your new style.

By: Laken Schmidt
