

Gaming explosion

\$2.99

WWW.AERIAGAMES.COM

This magazine is about all sorts of games and its all about reading about history of games and fun facts.

There are many types of video games out there. Lets start with some basic ones like Halo 4, Minecraft, Call of Duty Black ops 2, Call of Duty, MW3, Madden 25 and lots more. Lets tell you about what some of the games are about. First Halo 4: Halo 4 is about this guy who is a soldier in the future and there ship was attacked by the covenant. He wakes up from a deep sleep and the ship is going to crash into a planet filled with the covenant.

You have to fight through them and complete missions and go to checkpoints throughout the way. You have a hologram person named Cortana and she tells you which way to go. But further in the game she starts to break down and corrupt. Second Minecraft: Minecraft is a game made out of blocks. And you are a person named Steve. You have to make shelter and weapons and fight mobs. There is day and night. At night monsters come out and if they see you they will try to kill you and make you lose all your stuff. The types of mobs are zombies, skeletons, spiders, creepers, and endermen.

The types of animals are cows, pigs, sheep, and wolves. There are NPC's which are non playable characters. They live in villages spread across the world. Third Call of Duty Black ops 2: Its a game where you play as a navy seal and kill enemies and save hostages. There are three different ways to play one is campaign the second is multiplayer and third is zombies. Campaign is where you do missions and kill enemy forces.

You can shoot down enemy helicopters with missile launchers and can send bomb strikes and more. Multiplayer is where you can fight each other or you can have enemy bots and kill them. You can set a score and time limit. You have to play the campaign first to play multiplayer. Third is zombies. zombies is where you are in a map and zombies try to kill you.

you get points when you kill zombies. You can buy better weapons to fight off the zombies . There are rounds and every round gets harder as you go on. You can pack a punch your weapons which make them stronger and faster. there is a mystery box somewhere around the map. The mystery box gives you random weapons. But when you are waiting for the weapon zombies still can kill you. You can play with your friends and see how long you can survive.

Halo Reach

In Halo Reach the time of this was before the first Halo but was one of the late games made. But basically in this game you are a new Spartan and is part of Noble Team and your job is to defeat the covenant and save Reach. Once the covenant first invaded Reach ONI basically declared the command of the UNSC(United Nations Space Command)to order all the Spartans to go and

fight and try to save Reach but since the Covenant had more forces they overran the Spartans and defeated them one by one. All Spartans were eliminated except for Spartan 117 John A.K.A Master Chief. They shipped Master Chief on the Pillar of Autumn before the covenant can stop them. Every Spartan fought till they were at

their end of their energy they never gave up and they never ever thought they were going to lose. They tried as hard as they can for as long as they can. In the first mission of Halo Reach the UNSC sent Noble Team to investigate a death. That is when they figured out that the Covenant was on Reach. That is why they called for all the Spartans so they wont lose reach. Noble team had six memebers. Noble one was Carter the Leader. Noble two was Kat the second in command. Noble three was Jun the Sharpshooter. Noble four was Emile the Close Quarters Combat Specialist. Noble five was Jorge the Heavy Weapons Specialist. And you were Noble Six the Rookie. In Reach you go on missions you didn't see in Halo, Halo 2, Halo 3, Halo 3 ODST. Halo Reach was the last Halo Bungie made. Bungie left the production and the rights to 343 Industries which made Halo 4. In this campaign you end up flying ships fighting in space driving warthogs and encountering the worst covenant vehicle

of all you will not be happy to see it and it may also be the death of a Noble Team member. ONI is in trouble you go to their swordbase about 3 times in the campaign and you see Dr. Halsey and rescue her. You may have to carry an A.I. and deliver it to the Pillar of Autumn and keep it safe or it can be the death of the UNSC. Spartans were invented

and invested by Dr. Halsey. She started to make Spartans to first fight the inzurrectionists not to fight the covenant but when the covenant came they prevailed and maybe they can save Reach. Halo Reach has a stunning campaign that all Halo fans will enjoy and can be a huge success for 343 and Bungie and hopefully give them ideas for Halo 4 and keep some stuff or get rid of them but lets hope they continue Halo.

Dear Editor,

I really like your articles and I am a big gamer myself. I play alot of games on my phone and also on my video game consoles. I hope you can inform me more about systems and keep up the good work. Also I am a really big fan of star wars, love your magazine.

Sincerely,

Jason

Halo 4 News

Halo 4 has been around for so long (2 years) people have started to wonder how the next game is going to be. The halo series all revolve around master chief, a super soldier who has been fighting the war for years and years.

Assassins Creed IV Black Flag News

Assassin's Creed IV Black Flag has been around for a little while as well and some people were disappointed in the death of Desmond Miles.

A young adult that was kidnapped by the Templars and was forced to help but then escaped and started fighting them.

Mass Effect 3 News

Mass Effect 3 was a shocking experience for fans who beat the game and were confused about the ending of commander shepard of what you had to choose to do now fans are wondering how the next game is going to turn out for them.

Gears of War News

Gears of war is a 3rd person shooter games that revolves around 4 individuals that are sent to kill these very nasty creatures called the Locust. The team is made up of Marcus the main character Dom Marcuse's personal friend Cole a thrashba

super star and very smart bad attitude and smart alek Baird.

Xbox News

All of these games are my personal favorite games to play on the Xbox 360 and the Xbox one. Speaking of the Xbox some fans have been complaining about how the Xbox One is not backwards compatible and how the console is being hacked.

It's lagging so the creators are trying to find a way to make the fans and families happy. So far they have found no evidence that the console has been hacked and that some people have just been making up rumors about it.

They have also been complaining about how expensive it is but it's a brand new console and the creators are saying that it's fair for a brand new console deserves to be that much money.

Hi I'm Jason Huang for your video game news report for the magazine Games United

Call of Duty: Ghosts

This is a story about two brothers named Hesh and Logan. They are 16 and 18 years old and living happy lives. A US satellite called Odin was attacked by the Federation of South America. Odin was filled with large kinetic rods. Odin exploded and got caught in the earth's atmosphere getting sucked in by earth's gravity. Odin came crashing down on the US. The devastation was possibly worse than nukes. The nation we loved was nearly destroyed. Within a blink the US became a weak country. The Federation attacked the US focusing their invasion in the south. The Federation captured civilians and executed them.

The US created a unit called *GHOST* to defend the US. Their main skill was stealth. Hesh and Logan wanted to defend their country and applied for *GHOST*. Also their father was an ex-marine and they wanted to follow in his footsteps.

The Federation had two major bases: one in Phoenix, Arizona and one in Montgomery, Alabama. The US wanted to block the roads and highways from Dodge City, Kansas to Edinburg, Texas. Blocking the roads would cause supplies to stop getting from base to base.

Their first mission was to clear out and take over Dodge City, Kansas. From Dodge City they took highway 50 to highway 35, putting a soldier every 20 yards. By the time they reached Oklahoma City they were running out of soldiers. They called in air support to deliver soldiers. They finally reached San Antonio where they found a mega base.

Thick steel walls with barb wire on top surrounded the entire base. They waited for a cargo shipment to arrive. The gates opened and the ghosts slipped in. The ghosts took over the base and found nukes. They threatened the Federation, to leave or be blown

	up. The Federation gave up and went home.

Soldiers stand by their enemy, Ghosts haunt them.

By Luke Petrasko

For the first time in 5 years video games have been very huge since 2008. They made super high quality games over the past year such as Skyrim and Old Republic exc...

This year lots of companies have made over billions and billions of dollars off these games that have come out in 2013-2014.

Assassins Creed 4 had 12.5 million in the first 6 months. Many of the new 2014 video games have made over 30 million dollars just in the U.S.

Some of the top ten best-selling games of this 2013-2014 are The Legend of Zelda: A Link between Worlds, Saints Row IV, Forza Motorsport 5 and so much more. All of these games had had over 12 million copies sold.

Star wars has been around for so long and they have made crazy RPG games such as the old republic and the new game that came out got 25 million in the first 3 months.

They haven't fully announced exactly when it will be released but they are planning it sometime in 2014 spring. Also a crazy futuristic war game called Titan fall is also coming in spring 2014. Many people are getting pumped for both games but don't forget about Mass effect 4 that will also be coming out soon.

Some games that have been around for so long and have been very famous over the years are Runescape (over 2.3 Billion) Star

Wars Old Republic over (4.5 million) and so much more.

Video games have been around for so long. It's crazy how far technology has gone from pixel Mario to Star wars old republic. It has taken us to a whole new generation of video games.

Like all of the Elder Scrolls games. How each game gets better graphics and better fighting how big Skyrim is compare to Oblivion. Plus they added dragons. The world as we know it is getting better technology better devices.

Its really amazing what video games look like now then what it looked like 30 years ago. Its also cool of how precise and realistic some of these games are.

Assassins Creed 2 climbing to Black Flags climbing. The graphics have gotten way better and the fighting changed a lot in each game.

Its amazing I wonder where video game technology will take us in the future thanks for reading keep your game on.

How my little brother got thrown out of a window.

By a French toaster

So, this is how it all started. I was sitting in my room looking through a gaming magazine in one morning and I saw an ad for the new Mario game that I had been dying to get, but instead of the normal price of the game, which was 49.99, the price was only 25 dollars, but only for one day only. I was so pumped! I went around my room looking around for any spare coins or bills, and when was finally done scavenging, I had 26 dollars and 37 cents, just enough to buy my game. I headed down stairs to find my mom when I noticed my brother was screwing around with my brand new Nintendo 64.

“Don’t break my N64!” I yelled at my brother over my shoulder as I ran into the kitchen.

“MOM!” I yelled “the new Mario game is only 25 dollars, but only for one day, can we go can we go can we go can we go can we go?” and after my mom calmed me down she said that we could go. When we got to the strip mall the local game store was in, I ran through crowd of people with my mom trying to keep up. I barged through the doors and there was a LONG line. I waited for 30 minutes to get to the front of the line. And when I finally got there, our conversation went a little like this.

“GIMIE DA NEW MARIO GAME!”

“Umm what did you say sir?”

“I WANT THE NEW MARIO GAME!”

“Umm, ok... that will be 20 dollars.

After my mom calmed me down enough so I could take my wallet out of my pocket, I paid the cashier and ran into the hall. My mom asked me if I wanted something to eat from the food court, but I just wanted to get home. We pulled into my drive way and I ran into my house and bolted into my living room, and what I found shocked me. My brother was standing over my N64 with a massive hole in it holding a broken controller. After I saw that what followed was a terrifying scene of me chasing my brother around my house 5 times and finally cornered him in my room. And I will say I lost my temper (and potentially my sanity) but, that’s how my brother got thrown out of a window
