What's the missing number?

$6 + \square = 10$

a

What's the missing number?

$\square + 3 = 6$

b

What's the missing number?

$8 + \square = 10$

c

What's the missing number?

$\square + 1 = 10$

d

What's the missing number?

$0 + \square = 4$

e

What's the missing number?

$\square + 3 = 10$

f

What's the missing number?

$3 + \square = 4$

g

What's the missing number?

$\square + 7 = 9$

h

What's the missing number?

$5 + \square = 5$

i

What's the missing number?

$\square + 4 = 10$

j

What's the missing number?

$2 + \square = 8$

k

What's the missing number?

$\square + 5 = 8$

l

What's the missing number?

$3 + \square = 7$

m

What's the missing number?

$\square + 2 = 10$

n

What's the missing number?

$5 + \square = 10$

o

What's the missing number?

$\square + 7 = 10$

p

What's the missing number?

$5 + \square = 9$

q

What's the missing number?

$\square + 9 = 10$

r

What's the missing number?

$0 + \square = 10$

s

What's the missing number?

$\square + 6 = 9$

t

What's the missing number?

$1 + \square = 9$

u

What's the missing number?

$\square + 4 = 8$

v

What's the missing number?

$9 + \square = 9$

w

What's the missing number?

$\square + 4 = 7$
